SOLICITAÇÃO DE CONCESSÃO DE TÍTULO DE EMERÊNCIA	40

TRABALHOS PROFESSOR WILLY LACERDA

• Stress relaxations in soils	50
• Compressibility properties of lateritic and saprolitic soils – progress report	56
• Movimento de massas coluviais	75
• Engineering properties of regional soils: volcanic, residual and granular	92
• Volume change measurements in collapsible soil by laboratory and field tests	115
• Stability of natural slopes along the tropical coast of Brazil	123
• Local instability in saturated colluvial slopes in Southern Brazil	143
• The behavior of colluvial slopes in a tropical environment	149
• Landslide initiation in saprolite and colluvium in Southern Brazil: field and laboratory observations	174
• Shear strenght of soils derived from the weathering of granite and gneiss in Brazil	189
• A suggested shallow slide mechanism of accidents in the região serrana of the state of Rio de Janeiro	204
