Table of contents

Preface XI

Organization XIII

Section 1

Batch and column tests for reactive barrier design 3
A.D. Gusmão, T.M.P. de Campos, M.M.M. Nobre & E.A. Vargas Jr.

Shear strength and hydraulic conductivity of oil-contaminated sand 9
E.C. Shin, M.T. Omar, A.A. Tahmaz, B.M. Das & C. Atalar

Geotechnical properties of a paper mill sludge from Brazil 15
F.A.M. Marinho, P.F. Teixeira, A.M. Vieira & A.R. Cabral

Landfill settlement calculations using a composite rheological model 21
A.C.M. Marques, G.M. Filz & O.M. Vilar

A numerical study of heavy metal transport in the dump area of the Municipal District of Viçosa, MG, Brazil 27
I.D. Azevedo, R.F. Azevedo, A.M. Germano & C.A. Carvalho

Experimental results and parameters obtained from leachate column clogging studies 33
J. VanGulck & R.K. Rowe

Diffusion of inorganic chemicals in some compacted tropical soils 39
A.L. Leite & A.B. Paraguassú

Phosphate uptake by a Brazilian soil, Iron-Rich™ and acidic fly ash 47
D.G. Grubb & P.S. Hemsi

Physical foundations of settlement behaviour of municipal solid waste 53
G. Ziehmann

Shear strength properties of municipal solid waste 59
O.M. Vilar & M.F. Carvalho

An elastic-plastic framework to reproduce the MSW mechanical behaviour – Long term analysis 65
S.L. Machado, O.M. Vilar & M.F. Carvalho

Geo-environmental cone penetrometer with efficient ground water sampling 71
Y. Watabe, T. Tsuchida, M. Tanaka, Y. Oda & Y. Sakai

Polymer gel barriers for contaminant containment 77
M.I.M. Darwish, P.L.J. Zitha, J.R.C. van der Maarel, L. Pel & H. Huinink

Evaluating flow rates from leak detection layers of double composite liner systems 83
G.J. Foose

Tank modeling test for the investigation of DNAPL migration processes 89
M. Kamon, K. Endo, T. Inui, J. Kawabata & T. Katsumi

Phosphate immobilization experiments involving Iron-Rich™ sludge 95
D.G. Grubb, W.E. Diesing III & P.S. Hemsi

Determining the permeability of low pervious rocks 101
P. Finger, J. Fritz, U. Hekel, T. Kolb, J. Kowalewski, L. Krapp, K.-P. Salomo, R. Wagner & R. Wunsch

Points of zero charge and adsorption for a Brazilian residual soil 105
P.S. Hemsi, M.E.G. Boscov & C.D. Shackelford

Water balance models and programmes – Comparisons and calculation results 113
R.M. Zeh & K.J. Witt

Soil-moisture retention curve changes under leachate contamination for tropical residual soils 119
A.C.S. Corrêa, N.M. Souza & J. Camapum de Carvalho

Large filtration tests on drainage systems using leachate 125
A.R.L. da Silva, E.M. Palmeira & G.R. Vieira

Modeling containment capacity of tropical residual soils 129
A.C.S. Corrêa, N.M. Souza & M.L.G. Ramos

Knowledge-based system approach on decision of landfill site selection 135
K.W. Chau

Sorption mechanism of arsenic on two soils of Northern India 141
I.C. Agarwal, R.K. Srivastava & A. Agarwal

Geotechnical monitoring program in Bogota's municipal solid waste landfill after the 1997 landfill slide 145
J.A. Rodriguez & E. Velandia

SOLAM – A numerical formulation for parabolic problems 151
P.I.B. de Queiroz & D. de Mattos Vidal

Dynamic strength characteristics of municipal solid waste 157
S. Singh

Evaluation of long-term performance of geomembranes by oxidative induction time and weatherability tests 161
H.-Y. Jeon & H.-K. Kim

Sorption of inorganic ions from leachate and organic soil of Gramacho M.S.W. landfill 165
E. Ritter, J.C. Campos & G. Giordano

The landslide of Doña Juana landfill in Bogota. A case study 171
B. Caicedo, E. Giraldo, L. Yamin & N. Soler

Geomechanical properties of municipal solid waste in Doña Juana sanitary landfill 177
B. Caicedo, L. Yamin, E. Giraldo, O. Coronado & N. Soler

Effect of consolidation on contaminant transport parameters of compacted clays 183
F. Mazzieri, P.O. Van Impe, W.F. Van Impe & D. Constales

A simulation model for consolidation and contaminant coupled flows in clay layers 189
F. Mazzieri, W.F. Van Impe, P.O. Van Impe & D. Constales

Design and performance criteria for evapotranspirative cover systems 195
J.S. McCartney & J.G. Zornberg

Compressibility of a municipal waste landfill 201
A.G.H. Pereira, L. Sopeña & M.T.G. Mateos

Geotechnical characterization of a pulp and paper (deinking) residue used in cover systems 207
A.R. Cabral, F. Burnotte, G. Lefebvre & C.T. Panarotto

Multispecies chemical transport in unsaturated soil 213
H.R. Thomas, P.J. Cleall & S.C. Seetharam

A parametric study of settlements for urban solid waste 219
L.M.A. Dellabianca & S.M.A. Dellabianca

Compacted lateritic soils as hydraulic barriers in waste containment systems 225
K.J. Osinubi & C.M.O. Nwaiwu

Infiltration and adsorption of a phthalate plasticizer in a Brazilian tropical soil 231
S.M.C.M. Carrara & D.M. Morita & M.E.G. Boscov

Coupled multigas, moisture and heat transfer in unsaturated soil 237
Z. Zhou, P.J. Cleall & H.R. Thomas

A parametric analysis of the impact of heterogeneities on PVD remediation systems 243
A.L. Welker

Strength and consolidation characteristics of underwater vacuum consolidated dredged silt 249
W. Haegeman, P. De Schrijver & J. Van Mieghem

Sanitary landfill of Santo Tirso – municipal waste physical, chemical and mechanical properties 255
C. Gomes, A. Ernesto, M.L. Lopes & C. Moura

Gases monitoring methodology applied in Muribeca solid waste landfill 263
F.J. Maciel & J.F.T. Jucá

Geoenvironmental investigations for cemetery installation and its impact on the environment 271
L.A.L. Bello, S.F. Sadalla Neto & W.M. Santos Filho

Leachate recycling feasibility study for a municipal landfill 277
H.K. Moo-Young, A. Valiente & T. McMonigle

A coupled mechanical and biological model to estimate settlements in solid waste landfills 283
G.F. Simões & T.M.P. de Campos

Section 2

Monitoring erosion off unvegetated mine tailings facilities and natural slopes using high-resolution, digital stereo-photogrammetry 291
D.J. Williams, D.J. Stolberg, P. Soole & G. Poropat

Cover trials on saline tailings storage facilities compared with a natural salt pan analogue 297
D.J. Williams, D.J. Stolberg & G.M. Bentel

Tailing dams – practical problems of ageing 301
I. Vanicek

Bioleaching of heavy metals from mining residues using *A. niger* 305
C.N. Mulligan, M. Kamali & B.F. Gibbs

Liquefaction potential of tailing dams 311
T.J. Espósito & A.P. Assis

Application of a dry cover system to remediate acid rock drainage generation in the uranium mining and milling site of Poços de Caldas, Brazil 317
H.M. Fernandes & M.R. Franklin

Geotechnical analysis of eroded sediments in a exhausted pit mine using CPTU tests 323
R.C. Gomes, L.H. Albuquerque Filho & J.T.G. da Silva

Evaluation of liquefaction potential of fine grained tailings 329
R.C. Gomes, E.L. Pereira & L.F.M. Ribeiro

Assessment of low alkalinity additives to minimize the environmental impact of solidified/stabilized sludge 335
M. Boutouil, M. Kamon, T. Inui & J.H. Jeoung

Underwater sediments and a procedure for the design of an embankment 341
R.D. Verástegui F., W.F. Van Impe & M. Van den Broeck

Problems and solutions for developing Malaysian ex-tin mining lands 347
R. Hashim

Element dynamics of red oak ecosystems on ash-ameliorated acid-sulphurous mine soils: A chronosequence study 353
A. Embacher & D. Knoche

Practical knowledge of covering soft tailings and strengthening tailings impoundments for long-term stability by the remediation of tailings ponds at Wismut GmbH 359
R. Daenecke, K.D. Oswald, G. Heerten & J. Horstmann

Geotechnical studies of material characteristics of a mine waste soil cover 365
W.L. de Oliveira Filho, A.P.D. Botelho, D.R. Silva & L.H. Albuquerque Filho

The assessment of contaminated disused colliery sites in County Durham, England 371
S.C.F. McClure, R.A. Forth & D. Beaumont

Characterization of residues from coal processing 377
R.M.G. Mendonça, L.S. Borma & P.S.M. Soares

Section 3

Sensitivity analyses of a risk assessment model applied to the rehabilitation of open cut coal mine spoil areas 383
D.J. Williams

Preliminary assessment of mineral extraction – related activities in the urban area of Ouro Preto, MG 389
C.R. Alves, M.L. Calijuri, C.H. Silva, I.C.D. Azevedo & J. Lorentz

Simple sensor for determination of chromium in the ground using chemiluminescence detection technique based on reaction of silica-immobilized luminol and hydrogen peroxide 395
H. Sakai & H. Tarumi

Variations of leachate characteristics with time in an experimental waste cell 401
F.F. Junqueira & E.M. Palmeira

Selection of MSW landfill site by means of the analytic hierarchy process 407
H.Y. Nakahara, J.J.P. Oliveira Filho, M.E.G. Boscov & P.C. Boggiani

Aquifer vulnerability assessment in Resende basin, Brazil, with the DRASTIC method 413
T.C. Pizani, G.C. Silva Jr. & C. Bettini

Developing an expert-knowledge scoring system for evaluating reductive dechlorination at TCE sites 419
N.A. Stiber, M. Pantazidou & M.J. Small

Geo-environmental investigation of a PCB plume contamination in a mangrove area 425
M.S.S. Almeida, A.C. Mesquita, M.I. Miranda & M.C. Barbosa

Studies of channel sediments contaminated with organics and heavy metals 431
M.S.S. Almeida, M.C.A. Barbosa, J.L.S.S. Almeida & D.F. Mariz

Section 4

Evaluation of ions retention capacity of a residual soil of Rio de Janeiro, Brazil 439
R.M.G. Mendonça, M.C. Barbosa & F.J.C.O. Castro

Evaluation of polymers' addition effect on sedimentation behaviour of dredged mud 447
A.C.B. Santos, F.J.C.O. Castro, M.C. Barbosa & M.C.M. Alves

Dissolution and reverse diffusion of metals in a compacted lateritic clay 453
J.K. Tsugawa, M.E.G. Boscov, K.L. Vello & E. de Oliveira

A strategy to determine if a landfill is the source of detected water pollution 459
A.B. Fourie

DNAPL detection using cross-well radar 465
M. Farid, A.N. Alshawabkeh, C. Rappaport & P. Kosmas

Effective disposal of fly ash as a stabilizing agent of expansive soils 471
B.R. Phani Kumar, J.V. Phani Kumar & N.S.V.V.S.J. Gandhi

Neutralization of crushed cement-stabilized sludge by carbon dioxide 475
Y. Nabeshima & T. Matsui

Evaluation of the applicability of cohesive volcanic ash soils to the landfill disposal liner 481
A. Suzuki, Y. Kitazono, Y. Hayashi & F. Hirosue

Coal ash treatment with cement or air cement 487
Y. Hayashi, A. Suzuki, Y. Kitazono, T. Akagi & A. Kuwaki

Investigation of red mud properties for use in road construction 493
A. Mouratidis & G. Tsohos

Use of power by-products in CEZ, a.s., Power Plant Ledvice, Czech Republic 497
O. Záleská, J. Záleský & J. Kozák

Road salt migration across a stormwater detention basin liner 501
D.G. Grubb & D.P. Condo

Comparison of soil pollution during waste deposit leaching and leachate infiltration on soil in a lysimeter 509
I. Alimi-Ichola

Silica waste utilization in ground improvement: A study of expansive soil treated with LRHA 515
A.S. Muntohar & R. Hashim

Study on in-situ measuring system of subsurface contamination using Frequency Domain Reflectometry 521
M. Komatsu & M. Nishigaki

Traffic vibration decrement properties using ferrum-lime stabilization 527
M. Kamon, M. I & T. Mizoguchi

Strength of cement treated hedoro mixed with coal fly ash 533
S. Tomohisa, K. Sawa, K. Ito, S. Maruyama & H. Tanaka

Oxygen diffusion through a needle punched geosynthetic clay liner 539
F. Rahman, A. Bouazza & J.K. Kodikara

Contamination by heavy metals in Santo Amaro da Purificação, BA, Brazil 545
S.L. Machado, C.W.C. Delgado & M.F. Carvalho

Reuse of construction waste for backfill material sorted by self-sedimentation 551
H. Akagi, M. Ibaraki, M. Itoh, S. Kameda & T. Ohwada

Utilization of MSW incineration bottom ash and clay as a composite geomaterial 557
K. Omine, H. Ochiai & N. Yasufuku

Use of sewage sludge ash from sewage treatment plants as an addition in concrete 563
A.L.B. Geyer, D.C. Dal Molin & N.C. Consoli

An approach for the assessment of by-products eco-compatibility in road construction 567
D. François, M. Legret & N. Delville

Preliminary design of permeable reactive wall based on column studies 573
I.M.C. Lo & K.C.K. Lai

Laboratory evaluation of hydraulic performance of liners produced with lateritic sandy soil stabilized with lime and cement 579
R.A.V. Ribeiro & J.A. Lollo

Compacted liner at Red Pine sanitary landfill, Canada: construction practice, quality control and freeze thaw effects 585
P. Chiasson, É. Hickey & M. Massiéra

The Karlsruhe cut-off wall testing unit (KTU) for monitoring in-situ permeability 591
A. Bieberstein & U. Saucke

The influence of cement type on the expansion of cement-stabilized phosphogypsum 597
A.R.K. Kobayashi & A.B. Parreira

Geotechnical reuse of waste expanded polystyrene as a light-weight geomaterial 603
N. Yasufuku, H. Ochiai, K. Omine & D. Suetsugu

Stabilization of surplus Ariake clay with cement and slag 609
C. Modmoltin, K. Onitsuka, T. Negami & M. Kouno

Utilization of coal ash as filling materials 615
J. Nishikawa, A. Sato & K. Amano

One-dimension compression behavior of sedimented coal fly ashes 619
D. Suetsugu, Y. Miyata & K. Kogure

Material properties of reservoir sludge re-using for embankment by cement treatment 625
M. Miyoshi, S. Yoshioka, S. Sakurada, H. Kuga, K. Shimizu, T. Goto, K. Suda & M. Ono

In situ embankment test by cement treated reservoir sludge 631
M. Miyoshi, S. Yoshioka, S. Sakurada, H. Kuga, K. Suda, M. Ono, K. Shimizu & T. Goto

Shape factors for single-well tests in soil-bentonite cutoff walls 639
J.P. Britton, G.M. Filz, J.C. Little & W. Herring

Planned corrective measures to reclaim an old waste disposal site in Sharjah 645
A. Shanableh, M. Omar, A. Tahmaz & A. Bubakir

Geotechnical stabilization of Zona Mansion in Dona Juana sanitary landfill. A case study 651
E. Giraldo, B. Caicedo, F. Montenegro, L. Yamin & N. Soler

Evaluation ex-post of the operation of a multicinema complex on a closed sanitary landfill 655
J.A. Bonifazi, R.G. Martín & E.G. Silva

Durability of compacted sludge landfill cover under wetting-drying cycle 661
M. Kamon, S. Inazumi, T. Inui & T. Katsumi

Mechanical properties incineration residue from municipal solid waste 667
K. Sato, K. Miyawaki, T. Shimaoka & T. Hirao

Reactive barriers for remediation of polluted soils: A case study 673
A. Tazioli, E. Fratalocchi & E. Pasqualini

Hydraulic performance of GCLs with different stress history 679
E. Fratalocchi

Application of bottom ash from municipal solid waste as road construction materials 685
T. Shimaoka, T. Hirao, K. Miyawaki & M. Hanashima

Effect of compaction conditions and dry-wet cycles on the hydraulic conductivity of the self-sealing/self-healing material 691
S. Moon, J.Y. Kim, M. Chung, K. Nam & J.J. Lee

Natural attenuation of chlorinated solvents in soil and groundwater 697
R.C.M. Nobre & M.M.M. Nobre

Biodegradation of deinking residues leachate by interaction with different mine tailings 703
K. Markewitz, G. Lefebvre, A.R. Cabral & C.T. Panarotto

Analysis of groundwater flow and contaminant behavior in an industrial coastal area in Brazil 709
C.E. Braga, I.C. Lage, M.T.C. Zulian, G.C. Silva Jr. & A.G. Pedroso

Evaluation and monitoring of Bangu waste disposal site, RJ, Brazil 713
R.G.S. Costa, G.C. Silva Jr., J.R.S. Moura & A.C. Monteiro

Geohydrologic modeling for construction of tunnel through contaminated soils 717
S. Choi & S. Sarkar

Aspects on the current classification of MSW bottom-ash 723
E. Ott & H.-G. Kempfert

Multi-layered systems for waste disposals and remediaton of polluted sites: four specific case histories 729
D. Alexiew

Author index 735

Table of contents

Preface IX

Organization XI

Section 5

Enhanced pilot-scale remediation of chromium by electrokinetics 741
D. Gent, S. Larson, C. Fetters, S. Granade, A.N. Alshawabkeh & M. Bricka

Sonication effect on NAPL removal by soil flushing method 747
Y.U. Kim & M.C. Wang

Field vapor extraction test and long-term monitoring at a PCE contaminated site 753
J.C. Chai & N. Miura

Enhanced soil vapor extraction using PV drains 761
O.M. Collazos, J.J. Bowders & M. Bouazza

Fuzzy inference model for remediation of contaminated groundwater 767
T. Hata, Y. Miyata & K. Kogure

Study on effects of soil vapor extraction with soil heating in low permeable ground 773
T. Shimizu, Y. Shigeno, S. Yabe & M. Aoki

Plasma conversion. A technology for vitrifying wastes and contaminated soils 779
R.A. Menezes & M.A. Menezes

Numerical simulation of field electrokinetic removal of heavy metal from saturated aquifer 787
S. Shiba, Y. Hirata, K. Yamaberi & T. Seno

Bioremediation of crude oil contaminated soil 793
A.C.L. Rizzo, R. Santos, A.U. Soriano, P.N. Seabra & S.G.F. Leite

Biological degradation analysis in Muribeca solid waste landfill associated with local climate, Recife, Brazil 799
V.E.D. Monteiro, M.C. Melo & J.F.T. Jucá

Sensitivity analysis for the evaluation of soil vapor extraction performance at an industrial site 805
M.M.M. Nobre, R.C.M. Nobre & C.R.F. Costa

In situ remediation of nitrate-contaminated groundwater using a permeable reactive barrier 811
T. Soejima, M. Itoh & S. Imamura

Landfill mining – a viable reclamation method for landfills. The case of the landfill "Jockey Clube", Brasília DF 817
C. Marton & N.M. de Souza

Non-local equilibrium NAPL-gas mass transfer in air sparging 823
W.A.P. Waduge, K. Soga & J. Kawabata

Effect of flow direction on surfactant enhanced remediation of DNAPL 829
I. Kulasooriya, K. Soga, D. Dai & T.H. Illangasekare

Diesel and gasoline biodegradation by soil microorganisms under laboratory conditions 835
L.F. Spinelli, F. Schnaid, P.A. Selbach, J.R. Oliveira & C.G. Teixeira

An alternative treatment for oily slurry using geotextile filters 841
M.B. Mendonça, M.C. Cammarota, D.D.C. Freire & M. Ehrlich

Bioventing of a gasoline-ethanol contaminated undisturbed soil 845
P. Österreicher-Cunha, J.R.D. Guimarães, C.M.F. Nunes, E.A. Vargas Jr., D.M. Mano, T.M.P. de Campos, F.S. Antunes & A. Costa

Electrokinetic remediation of organic mixture contaminated soil with surfactant enhancement method 851
S.-S. Kim, S.-J. Han, Y.-S. Jang, G.-H. Kim

Remediation of contaminated grounds by soil's ice segregation phenomena 859
Y. Ito, M. Kamon & H. Hato

Soil clean-up levels based on health risk assessment for two sites in Mexico 865
R.M. Flores-Serrano

In situ flushing for soils contaminated with petroleum hydrocarbons 871
R. Iturbe-Argüelles, C. Chávez-López, L.G. Torres-Bustillos, C. Flores-Torres, J.L. Orantes-Gómez & A. Ramirez-González

Soil phytoremediation 875
J.C.M. Andrade, C.F. Mahler & J.A. Oliveira

Laboratory investigation of electroosmosis flow efficiency in a residual soil from gneiss 881
J.T. Araruna Jr., B.M.M. Rivas, A.J.P.P. Mergulhão, M.V. de Souza & F.S. Antunes

Cleaning debris from oil spills by thermal desorption 887
J.T. Araruna Jr., V.L.O. Portes, M.G. Silva, M.S. Sthel, D.U. Schramm & S. Tibana

Contributions

Stability of liners: some particular issues 895
E. Pasqualini, E. Fratalocchi & M. Stella

Influence of time on design parameters of MSW fills 913
L.G. de Mello & M.E.G. Boscov

Final covers for uranium mill tailings impoundments 923
M.S.S. Almeida, G.L.M. Leoni & H.M. Fernandes

Service life of landfill liner and cap components 933
R.G. Clark

Engineering with tailings 947
M. Fahey, T.A. Newson & Y. Fujiyasu

Technical session PS2: Report of discussion leader 975
W.D. Carrier III

Thickened tailings: is it a revolution in the making? 977
A.B. Fourie

Risk assessment: some new challenges associated with PCBs, arsenic, and VOCs 987
R.K. Rowe, B.H. Kueper, K.J. Reimer & H.M. Li

Risk assessment: some views on current practice as evidenced by papers presented to conferences and symposia 1001
W. Hachich

Questions for the future of risk assessment in environmental geotechnics 1007
R.B. Gilbert

Management of contaminated sites 1013
T. Katsumi & M. Kamon

Can we identify sustainable remediation techniques for contaminated land? 1039
S.A. Jefferis

Recovery of simulated LNAPL spills in sandpacks using ethanol 1059
A.M. Palomino & D.G. Grubb

NAPL source zone remediation – mass flux approach 1069
K. Soga, J. Page & N. Gowers

Remediation of contaminated sites 1083
P. Jarre

Containment systems: lessons learned from North American failures 1095
C.H. Benson

Author Index 1113
